

# What **young people** have said about Ticket to Work

I would like to tell students and parents that traineeships can be really fun and interesting and they shouldn't be nervous about them. If I could get to all schools and tell them about school-based traineeships I would.

---

I love Ticket to Work, you learn lots of information and good skills for work and also you make good friends.

---

During my work experience I got a lot better at talking to people I work with and members of the public.

---

Meeting people has been a highlight of my traineeship and at work I've met a lot of different and friendly people who work with me and are customers.

---

I feel I am on track, as the skills I am learning at my current job will make me more employable in the future.

---

I'm finding independence it's a great feeling.

---

At work if I have any problems I just ask my employer so that means my confidence has increased.

---

I feel proud of myself for being a team member and working on my own.

---

I want to work and make money and to have good friends.

---

Yes I'm really pumped about finishing school, school has been great but I'm ready to move on. I'm confident about finishing my traineeship and excited. It could lead to really big things!

---

I want to be my own boss and to show people that even if you have a disability you can still make something important out of your life.

---

I want to work, make money, buy a house, and get married.

---

I feel proud of myself for being a team member and working on my own.

---

I would recommend school based traineeship to other students because you get a good job and get paid to do it. It also helps them look to the future and work out what they want to do.
